Tagore Academy Public School
2019-2021 | 83.4%

Secondary (10th Std)
Tagore Academy Public School
2018-2019 | 83.5%

PROJECTS

MechHome (Your One-Stop Destination for Mechanic Services)

02/2021 - present,

- *I spearheaded the development of MechHome, an*
- *innovative online platform that simplifies access to*
- *mechanic services. Leveraging React.js for the frontend*
- *and Java for the backend, I ensured a seamless user*
- *experience and robust server-side functionality. Integrating*
- *MySQL for efficient data management and RESTful APIs*
- *for smooth communication, MechHome offers features like*
- *effortless booking, verified mechanics, and transparent*
- *pricing. Real-time updates keep users informed, while a*
- *user-friendly interface ensures accessibility across*
- *devices.*

ShopHub – (an online fashion shopping e-commerce)

05/2022 - present,

- *Spearheaded the development of an end-to-end e-commerce website named ShopHub using JavaScript, Node.js, Express.js, and MongoDB. The platform enables seamless online shopping experiences for customers and efficient management for merchants. Integrated features include user authentication, product catalog browsing with search and filter options, shopping cart functionality, secure payment processing using Stripe API, and order management. Implemented responsive design for cross-device compatibility and optimized performance for fast loading times. Employed JavaScript for both client-side interactivity and server-side functionality, demonstrating proficiency in full-stack development.*

SKILLS

Programming Languages: Java, Angular, JavaScript, C, C++, HTML, CSS

Development: Angular Framework, React.js, Node.js, Express.js, jQuery

Databases: MySQL, Oracle Database, MongoDB, DB2

TRAINING AND CERTIFICATE

LinkedIn Certification

14/4/2024
Develop your skill in Agile software Development

14/4/2024
DevOps Foundation

30/10/2024
Business Etiquette: Phone, Email and text

18/5/2023
Artificial intelligence for students

06/10/2022
Programming Foundation: Database

Udemy Certification

13/08/2022
Learning Programing in C++.

07/05/2024
Mastering Data Structure and algorithms .

AWARDS/ACHIEVEMENTS

Platforms

Leetcode – solved more than 200 question

Geeksforgeeks – solved more than 300 question and

progressing to top 10 in university ranking.

LANGUAGES

English, Hindi

INTERESTS

Programming, Reading, Running
